Still Reducing Prices.

Still Sacrificing Profits.

There are two ways of raking in money. The best way is to watch opportunities for good investments-like Graham's Summer Clearance Sale. Our bargains have proved among the most profitable investments that clothing buyers have had for many a day. As we get near the end of our sale the reductions become more slashing, as our aim is to clear the store for large fall shipments.

We never carry stocks from season to season. We never hold on to fragments or odd sizes. This plan keeps our stock the freshest and best assorted in Lindsay. Incidentally it brings to you the best bargains known in Lindsay.

With Autumn Goods knocking at the door for admittance, this clearing spirit is paramount. If one price doesn't move the Merchandise a lower one is made. There is no restriction, no limitation.

There is one great common object—quick, decisive and certain clearing, and the buying public reap rich harvests. Space limitation will not permit going into detail. We must let the prices speak for themselves.

The big bounding success of our "Special House Gleaning Sale" during the past six weeks is the cause of the 7 by 9 smile which you may have seen us wearing the past few days.

August finds us with stocks in every department in excellent condition, and we begin to look forward with buoyant expectations for fall business.

A Big List of Seasonable Goods at Half Price for Friday and Saturday.

The month of August is usually the slowest month of all the year in the Retail Dry Goods business. It is also, or should be, in every progressive store, the month for closing out all kinds of surplus stock. You know our fixed rule is "not to carry over any goods from one season to another." Now, in order to keep up our usual business activity this month (and also to be dead sure of all surplus stock and summer goods) we're giving you the following list of up-to-date and reliable goods—all fully guaranteed or money refunded-at half and less than our regular selling prices.

We fully realize that our loss will be considerable during the Two Days Half Price Sale, but we're prepared to take our medicine, knowing that it will be better in the end for us to take the loss now. In the meantime take out your pencil and figure the saving if you buy a bill of goods selected from this list:
